ABOUT DENTAL INSURANCE:

Dental insurance companies determine the amount of your benefits after they receive a claim. Prior to treatment they will provide only general information. However, many companies are now making policy limits available to us online. We will do our best to help you obtain information to estimate your dental insurance coverage. Primary dental claims are submitted electronically by our office on the day of surgery. Your estimated “out-of-pocket” fees will be collected prior to surgery. If you have secondary dental insurance, we will provide an itemized statement to aid you in the claim filing process.

“NETWORK” INSURANCE POLICIES:

Your recommended treatment will be based on your individual needs rather than on dental insurance allowances. For this reason, Dr. Angier has chosen not to contract as a network provider with any dental insurance plans. Primary dental insurance claims will be filed to allow for “out-of-network” benefits.

SEDATION:

Sedation is an example of a high quality service. In addition to increasing patient comfort, sedation relaxes jaw muscles allowing for more precise manipulation of tissues. In spite of this, basic insurance policies seldom include this service in their coverage.

PAYMENT FOR NON-SURGICAL APPOINTMENTS:

Coverage for examinations, re-evaluations and hygiene appointments is highly variable with insurance companies. Fees for these non-surgical appointments will be collected from you at the time of service. We will be happy to file electronic claims for your direct reimbursement.

Please let us know if you have questions. It is always our pleasure to assist you.
